

COMPANY PROFILE & PORTFOLIO · 2026

# We design & build websites that actually work.

Websites, e-commerce and custom software — engineered in Dhaka for clients in Bangladesh, the United Kingdom, Australia and the USA.

**80+**

PROJECTS DELIVERED

COUNTRIES SERVED

**100%**

CODE OWNERSHIP

WHO WE ARE

## A senior team in Dhaka that ships

Seven years, more than eighty delivered products, and not one of them abandoned halfway.

**BDdevs Tech is a full-service web and software agency based in Dhaka, Bangladesh. We build the things a business actually runs on — the store that takes the order, the portal that captures the lead, the system that tracks the stock.**

We are deliberately small and deliberately senior. The person who designs your interface is in the same room as the person writing the code, which is why our projects land on time and why you can always speak to someone who knows your build.

Our clients range from a single-owner shop in Mirpur to a national newspaper, a UK immigration consultancy and a lighting retailer in Australia. What they have in common is that they needed something built properly — and needed to own it afterwards.

**100%**

CODE OWNERSHIP

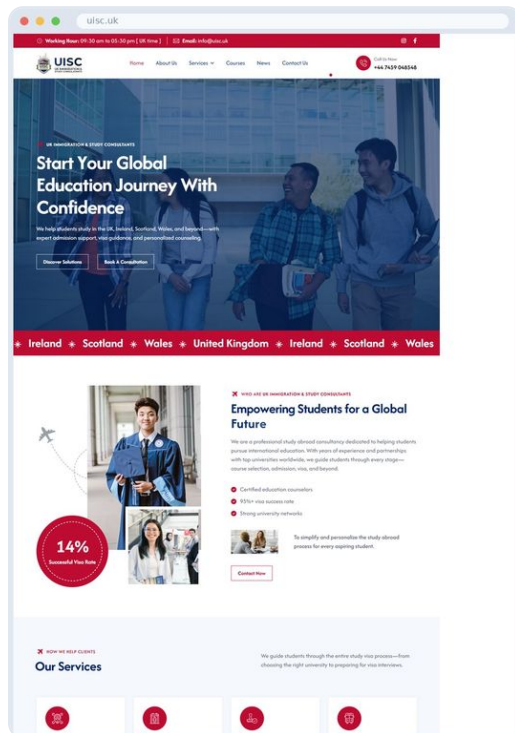

**“**

Every project we take on has one test: six months after launch, is the client still glad they chose us? That question decides what we build and how we price it.

**Omar Faruk** Founder, BDdevs Tech

# Design people remember

A handful of builds we would put in front of anyone — chosen for craft, not for size of budget.

EDUCATION CONSULTANCY · UNITED KINGDOM

## UISC — UK Immigration & Study Consultants

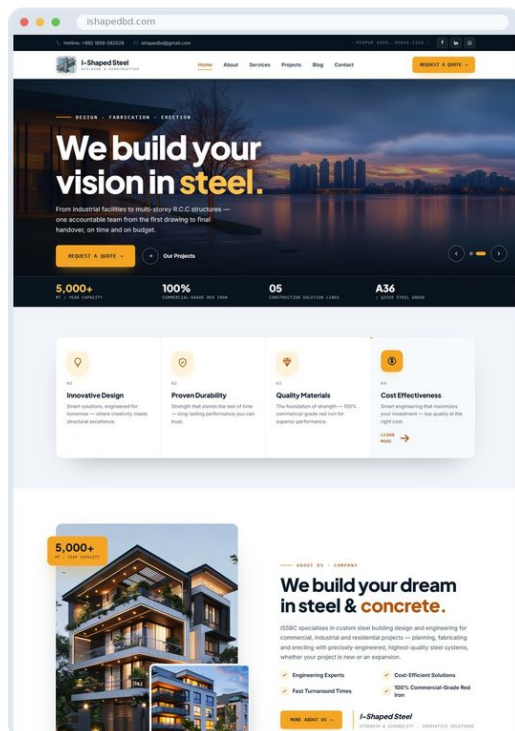

A trust-first platform for a consultancy that places students across the UK, Ireland, Scotland and Wales. Course and country guides, visa-service pages, a live working-hours bar and a one-tap booking flow — designed so a nervous applicant always sees the next step.

Multi-country

Booking flow

Bilingual-ready

[uisc.uk](https://uisc.uk)

STEEL & HEAVY ENGINEERING · BANGLADESH

## I-Shaped Steel — Design, Fabrication & Erection

A cinematic industrial site built around full-bleed project photography and a hard-numbers capacity strip — 5,000+ MT a year, A36 grade, five construction solution lines. Heavy engineering made to look as precise on screen as it is on site.

Dark UI

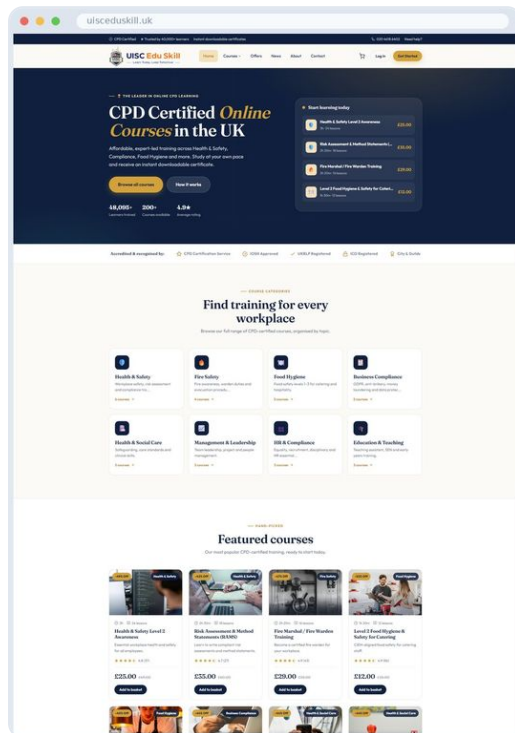

Project gallery

Quote request

[ishapedbd.com](https://ishapedbd.com)

# Built to convert, not just to impress

Beautiful is the easy half. These are the pages that also bring in the enquiry.

CPD-CERTIFIED E-LEARNING · UNITED KINGDOM

## UISC Edu Skill

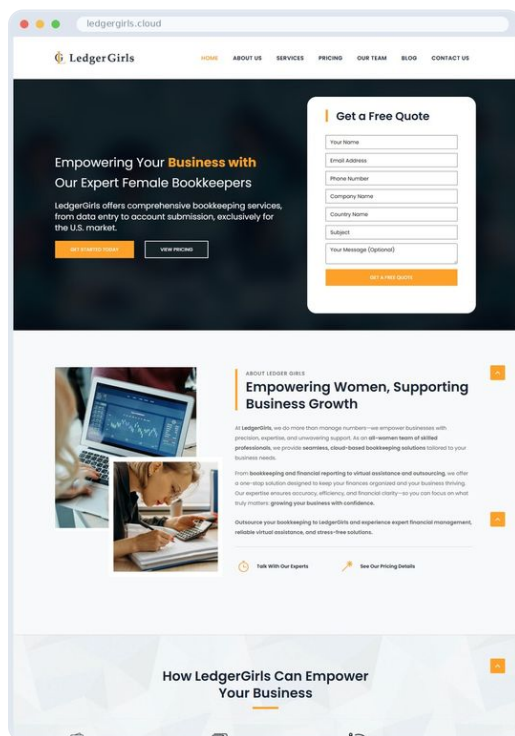

A complete online-training storefront: 200+ CPD-certified courses, instant checkout, automatic certificates and an accreditation wall that does the selling for you. Built to carry 48,000 learners without the catalogue ever feeling heavy.

LMS

Card checkout

Auto certificates

[uisceduskill.uk](https://uisceduskill.uk)

BOOKKEEPING & ACCOUNTING · UNITED STATES

## LedgerGirls

A conversion-first site for a US bookkeeping practice. The quote form lives inside the hero, pricing is stated plainly instead of hidden behind a call, and a warm gold-on-black palette keeps a finance brand from reading cold.

Lead-gen hero

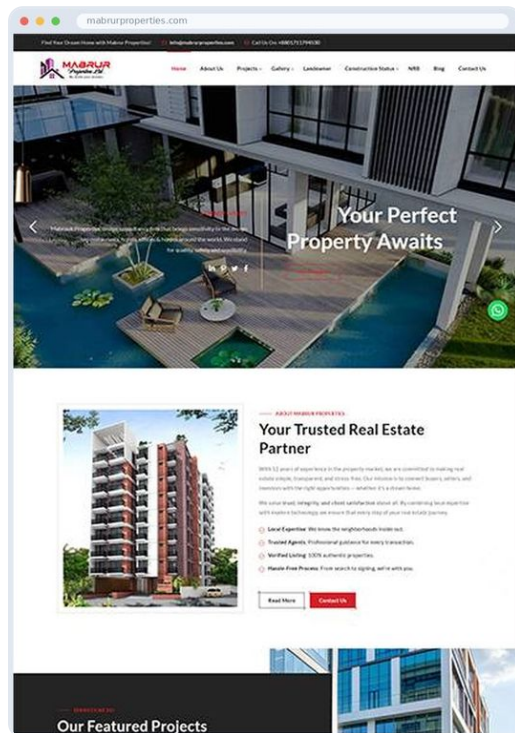

Open pricing

US market

[ledgergirls.cloud](https://ledgergirls.cloud)

# And more in the same collection

Property, apparel, fashion retail and online learning — the same standard, four different sectors.

REAL ESTATE DEVELOPER · DHAKA

## Mabzur Properties

A developer portal built around the buyer's journey — project listings with live construction status, a landowner joint-venture section, a dedicated NRB desk for overseas buyers, and a gallery that sells the finish long before the site visit.

### ✨ What runs through all of them

- One idea per screen — the visitor is never asked to decide two things at once.
- The next action is always visible: call, quote, book or buy, never buried.
- Type that holds up on a 5-inch phone before it is judged on a 27-inch monitor.
- Real photography and real numbers instead of stock images and filler text.

# Eight things, done properly

We would rather be excellent at a short list than average at everything.

## Business Websites

Corporate, service and landing sites that load fast, read well on a phone and rank on Google.

## E-commerce Stores

Full online shops with bKash, Nagad, SSLCommerz, Cash on Delivery and courier integration.

## LMS & Education

Course platforms, admission systems, student portals and online result publishing.

## Custom Software

ERP, CRM, POS and inventory systems built around the way your business actually runs.

## WordPress & CMS

Theme development, plugin work, speed optimisation and rescue of broken WordPress sites.

## UI / UX Design

Interfaces designed to convert visitors into enquiries — not just to look attractive.

## SEO & Digital

Technical SEO, Google Business Profile, campaign tracking and analytics you can read.

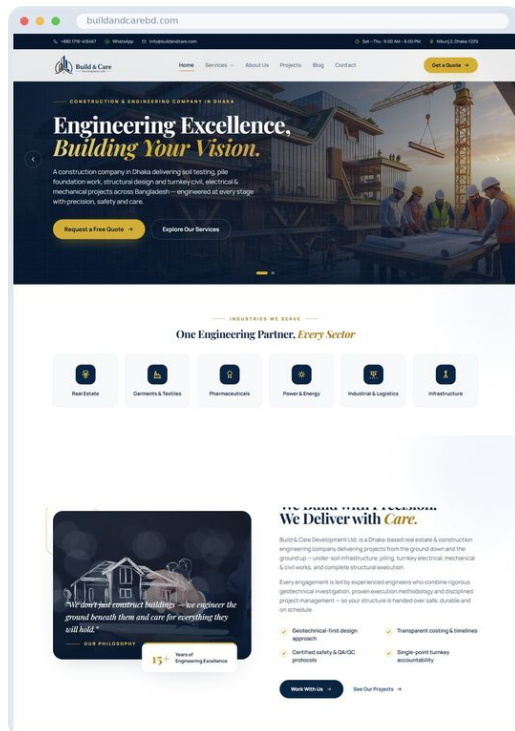

## Support & Care

Hosting, daily backups, security updates and monthly change requests, on a fixed plan.

RECENTLY LAUNCHED

# Fresh off the workbench

Four sites delivered in the last cycle — three live, one in final build.

COMPLETED

CONSTRUCTION & ENGINEERING

## Build & Care BD

"Engineering Excellence, Building Your Vision." A corporate site for a Dhaka construction and engineering company covering soil testing, pile foundation, structural design and turnkey civil, electrical and mechanical work — organised sector by sector, with a quote request never more than one tap away.

[buildandcarebd.com](https://buildandcarebd.com)

COMPLETED

Steel & RCC

### AMA Steel Structure

Corporate and project site for a structural engineering firm with twelve years in the field — steel and RCC building design, fabrication, soil testing and digital survey, with a project gallery built in.

[amassc.com](https://amassc.com)

COMPLETED

Civil  
Engineering

### The Civiltech Corporation

Service site for a civil engineering firm with 8+ years of work — aluminium & glass, false ceiling & ACP, MS grill & railing, PU and epoxy flooring, construction chemicals and steel erection.

[theciviltech.com](https://theciviltech.com)

ONGOING

Real Estate

### KinOn Holdings PLC

Property portal for a Dhaka developer — RAJUK-approved apartments and commercial space across Uttara, Bashundhara, Mirpur and Gulshan, with landowner joint-venture and NRB sections.

# Five steps, no mystery

You will always know which step we are on and what happens next.

01

## Discover

We listen, ask the awkward questions, and write down exactly what success looks like before quoting.

02

## Design

You approve every screen as a design before a single line of code is written.

03

## Build

Modern, secure code — with a live preview link you can open and follow every day.

04

## Launch

Domain, hosting, SSL, SEO setup, data upload and hands-on training for your team.

05

## Care

Backups, updates and a real person on WhatsApp when something needs changing.

### Our written promise

- A fixed price and a written scope before any work starts.
- A 30-day bug-fix warranty after launch, at no cost.
- Two rounds of design revision included at the design stage.
- Full ownership of code and accounts on final payment.

# Six reasons clients stay

Most of our work now comes from referrals. This is why.

## You own everything

Source code, domain, hosting and every account transfer to your name on final payment. No lock-in, ever.

## Fixed price, written scope

What is included is written down before we start. No mid-project surprises, no creeping invoices.

## Mobile-first, always

Most of your visitors arrive on a phone over mobile data. Every screen is designed for that first.

## SEO from day one

Clean URLs, schema, sitemap and Search Console — so the site earns traffic instead of only buying it.

## One team, start to finish

The people who design it build it and support it. Nothing is thrown over a wall to a stranger.

## Dhaka rates, global standard

Clients in Bangladesh, the UK, Australia and the USA get the same code quality — at Bangladesh pricing.

### WHERE OUR WORK RUNS

#### Bangladesh

Dhaka, Chattogram & nationwide

#### United Kingdom

London & the Midlands

#### Australia

Retail & trade clients

#### United States

Finance & back-office

WHERE PRICING STARTS

# Honest starting points

Every quote is written to your scope — these are the floors, not the ceilings.

## Business Website

Corporate & service sites

FROM BDT  
**25,000**

- Up to 10 pages
- Mobile responsive
- Contact & enquiry forms
- Basic SEO setup
- 1 month free support

## E-commerce Store

Sell online, properly

FROM BDT  
**45,000**

- Product catalogue & cart
- bKash · Nagad · COD
- Order & stock management
- Courier integration
- 1–3 months support

## Property Portal

Real estate & listings

FROM BDT  
**75,000**

- Unlimited listings
- Map & filter search
- Enquiry & visit booking
- Lead pipeline
- Agent profiles

## Custom Software

ERP · CRM · POS · LMS
